

ABOUT WINDOWS & DOORS COMPANY

The Window & Door Company have all the craftsmanship, skills and expertise you need to turn your home improvement project plans into reality, at a price you can afford.

No matter what size the project you have in mind, our dedicated team take great pride in their work. We pride ourselves in completing every job to the highest possible standards held by our clients.

As we enjoy an excellent local reputation for quality workmanship and value based on simple word-of-mouth and personal recommendations. The Window & Door Company only use the best materials and suppliers, and complete every project to the same exacting standards. We're delighted to offer our customers a rock solid 10 year guarantee on everything we do!

Why choose us?

We believe that the customer is always right and we tailor our products to match your exact requirements.

Whatever your requirements, property type and budget, our dedicated team will work with you from step one to make your ideas become a reality.

This begins with an on site survey.

How do I arrange a survey?

Click on the **"Download Brochure"** button to view some of the products and brands we supply and fit. Click on the **"Get Quote"** button at the side of the screen to request a survey or callback so we can discuss your requirements in further detail.

Once we have all the information we need on your project we will send you a **no-obligation electronic quote** which you will receive as an email from WinQuote. You can easily accept this quote, reject it, or direct message us to ask us any questions about it.

Things to consider when buying Windows, Doors and Conservatories

Do you need planning permission?

When installing a garden room, planning permission isn't usually required. You're only likely to need planning permission if your garden room will cover more than **half the area surrounding your house**, or if the roof is higher than the highest point of your existing property.

You must also obtain planning permission before you build on raised platforms such as **verandas and balconies**.

Energy Ratings

The Window Energy Rating system tells you how energy efficient a window is. Windows are given an energy rating on a scale of G to A+, with **A+ windows being the most energy-efficient**.

If saving money on energy bills is important to you and you want a warmer home then it goes without saying that you should try and buy the most energy efficient windows you can afford.

Reputation

As always, buy from a reputable business. There are lots of great companies out there but others that are less reputable.

Don't be afraid to **check out our reviews** online and in our app account to see what our past customers have to say about us.

Use BM Trada, Certass and Fensa registered glaziers

It's a good idea to choose a double glazing installer that is registered with a competent person scheme, such as **BM Trada, Certass or Fensa**. Membership means that companies can self-certify their work complies with building regulations. It also means the work is covered by an insurance-backed guarantee if it's not compliant and the company goes bust.

In England and Wales, new and replacement windows must meet a certain level of energy efficiency. You need to get a certificate to show your windows comply with these regulations. An installer registered with one of the self-certification schemes will issue this certificate for you - otherwise your council will need to come and check the work.

Composite Doors

Composite doors combine attractive design with industry-leading security and outstanding thermal efficiency.

Personalise your new door with the Composite Door designer tools from Solidor, Door-stop and Virtuoso Doors.

Excellent Choice of Colours

We have colours to suit any home, be it traditional, contemporary or modern.

The Personal Touch

We offer a stunning range of suited furniture to match any home, from traditional hardware to contemporary stainless steel options.

Unbeatable Security

We can supply and fit Ultion locking systems which has an incredible suite of security features that work to secure your home against major attacks on your door.

French Doors

- ✓ **Low maintenance**
- ✓ **Offers all the benefits of modern uPVC**

A French Door manufactured from REHAU profile is a charming addition to any home or conservatory.

The extensive opening allows unrestricted access to your home as well as maximum ventilation and practical entry into your garden or patio.

Patio Doors

- ✓ **Outstanding Quality**
- ✓ **Maximum glass area**

Offering all the benefits of modern uPVC including noise reduction, low maintenance, safety and security and energy efficiency – Our Patio Door systems are available in a wide range of options with a choice of two, three or four panes

Bi-folding Doors

✓ Strong aluminium

An increasingly popular alternative to more traditional French Doors and patio doors, the Bi-Fold door can offer so much more – improving open plan living and bringing a modern contemporary feel to almost any home.

Is a sophisticated door system which meets the demands of almost any property, enabling you to choose the number of panes to suit your needs.

Aluminium Patio Doors

A Sliding Patio Door has classic good looks with a maximum glass area which optimises visibility, making it a perfect choice for conservatories, balconies, porches or extensions.

Sliding patio doors are an ideal solution where space is a consideration ensuring the maximum amount of space is available both outside and inside the property.

- ✓ **Flood a space with light**
- ✓ **Superior insulation to keep your home warm**
- ✓ **Guaranteed reliability**

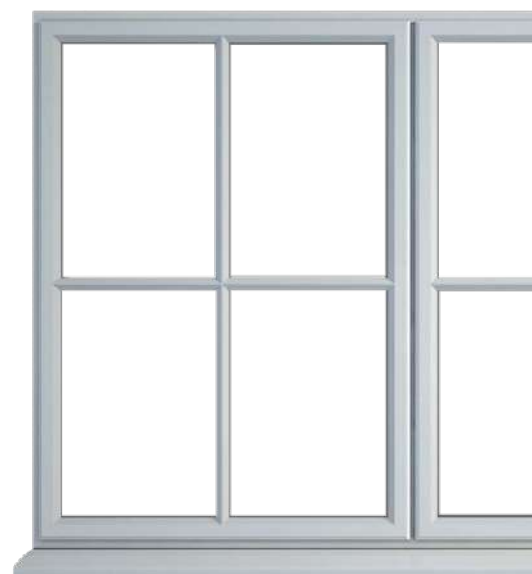

Casement Windows

Casement windows are the most popular style of replacement window in the UK – an extremely versatile window that will suit most homes where-ever you live.

Featuring fixed panes, top opening fanlights and side opening lights, casement windows can be combined to create an almost limitless range of styles, whilst providing the benefit of noise reduction, low maintenance, safety and security and energy efficiency.

- ✓ Low maintenance
- ✓ High-performance uPVC

Bay Windows

- ✓ REHAU A rated windows
- ✓ Wide furniture choice

Bay Windows are an elegant and attractive external feature in any property, whilst internally they create a sense of space and light.

uPVC Bay Windows provide the benefit of noise reduction, low maintenance, safety and security and energy efficiency.

Tilt and Turn Windows

- ✓ Secure ventilation
- ✓ Ease of cleaning

Tilt and turn uPVC windows offer a simple, contemporary and stylish solution to suit modern properties, together with the benefits of noise reduction, low maintenance, safety and security and energy efficiency.

Tilt and turn windows offer simplicity and versatility – providing the option of the window tilting inwards or being fully opened inwards.
